SUMMARY

Motivated Software and Robotics professional with experience in **STEM education, systems development, and IT support**. Skilled in teaching robotics and coding, building software solutions, and supporting technical systems. Passionate about helping learners develop practical technology skills while contributing to innovative, real-world solutions. Currently working towards a career in Artificial Intelligence and Machine Learning.

SKILLS

Robotics & STEM:	Arduino, Sensors, Embedded Systems, Electronics, Coding Instruction, STEM Training
Software Development:	Python (Tkinter, Flask, Pandas), HTML, CSS, SQL, Next.js
Data Analysis & Reporting:	Microsoft Power BI, Microsoft Excel, Python (Data Analysis & Visualisation)
Technical Support & Systems:	Hardware Diagnostics & Repairs, Windows Installation & Configuration, Application Setup, Device Drivers
Other Skills:	GitHub, WordPress, Problem Solving, Technical Training, Team Collaboration

WORK EXPERIENCE

IT Technician & Robotics Instructor

Robokorda Zimbabwe, Harare, Zimbabwe

October 2025 - Present

- Delivered robotics and coding lessons to **500+ students**, helping them understand and apply engineering and problem-solving concepts.
- Led practical STEM sessions using Arduino, sensors, and basic electronics.
- Contributed to the development and implementation of an **Internal ERP System** for tracking company performance.
- Diagnosed and repaired laptops and desktops to ensure smooth operations.
- Installed and configured operating systems, applications, printers, and scanners.
- Supported technical setup and maintenance for training sessions and workshops.

Website Designer Intern

UM Designs Creative Agency, Bulawayo, Zimbabwe

January 2023 - July 2023

- Designed and developed WordPress websites tailored to business needs.
- Supported clients in improving their online presence and digital systems.
- Assisted with data analysis to improve website performance and usability.
- Managed multiple projects while maintaining quality and meeting deadlines.

CERTIFICATIONS

Python for Data Analysis Certificate – freeCodeCamp

March 2025

- Developed skills in data cleaning, analysis, and visualisation using Python.
- Worked with real-world datasets to generate insights and support decision-making.
- [View the Certificate here.](#)

PORTFOLIO

- I have developed a range of projects across software development, data analytics, and robotics systems.
- To view my work, including applications, dashboards, and robotics-based projects, please visit:
